

E-Fundraiser Guide

You can now set up your very own fundraising web page. You can then email the address to all your supporters and get them to sponsor you online.

They are really easy to use and you can have your very own fundraising page in a matter of minutes.

Fundraising online is a great way of attaining sponsors from family and friends. Everything is very secure.

To get started visit our mini fundraising site at:

<https://sscb.workwithus.org/fundraise>

A good tip before you get building is to have all the necessary information you might need handy. Don't worry though, you have complete ownership of your page so that you can go in and edit any of the fields at a later date. Things you might need to edit are the target, how much you have raised offline and an update on how the event went.

1 Select the Type of Page:

Sponsorship page - for an events such as fun runs and marathons

Celebration page - to celebrate a special event such as a wedding or a birth

This screenshot shows the initial step of creating a fundraising page. The title is "Create a Fundraising Page" with a subtitle "Please select which type of page you'd like to create:". There are two main options presented in separate boxes. The first option is "Raise money through sponsorship", which includes a small icon of a document and a pencil. The text below the icon explains that this option is for events like marathons or treks and allows for online sponsorship collection. Below this text is a button that says "Create a Sponsorship Page...". The second option is "Celebrate a personal occasion", which includes a small icon of a birthday cake. The text below the icon explains that this is for special events like weddings or anniversaries. Below this text is a button that says "Create a Celebration Page...".

2 Creating the Page:

First complete the fields to create your login account, this is so you can come back and edit it at any time.

Then start filling in all the fields: description of how and why you are raising funds for our organisation; Target Amounts; and how much you have raised offline.

Don't forget to add up a picture, this helps make your page standout.

Show Donor List: Describe how you would like you page to be displayed; with donor names only, with donor names along with any comments they make, or with no list at all.

You may like to alter the thank-you message that is both displayed and emailed to each donor after they make a donation.

Then hit save...

You now have your very own fundraising page!

This screenshot shows the "Create a Sponsorship Page" form. At the top, it says "Home > Edit Fundraising Page" and "Create a Sponsorship Page" with a note "All fields are mandatory unless otherwise stated.". Below this is a paragraph of instructions: "If you have created a fundraising page in the past or have a workwithus.org login for any other purpose, please login before completing this page. Otherwise complete the fields below and we'll set up a new login for you. [Already got a login? Please log-in...](#)". The form contains several input fields: "Forename:" and "Surname:" (with a small text box between them), "Your Email Address:", "Password:" and "Enter your chosen password again:". Below these is a "Team or Individual's Name:" field. The "Description:" field is a large text area with a rich text editor toolbar above it, including options for bold, italic, underline, text color, background color, bulleted list, numbered list, link, unlink, insert image, and undo. At the bottom, there is a "Picture:" field with a note "(GIF, JPEG and PNG images accepted.) (optional)" and a "Browse..." button.

3 Activating your Fundraising Page

If this is the first time you have set up a fundraising page, you will receive a confirmation email. You will need to click the confirmation link in this email in order to make the page active.

If you have any problems you can email helpdesk@workwithus.org

At any stage you can edit your page.

When you first start off you will not have any donations displayed. Don't worry about that because it will soon change!

4 Making the most of your Fundraising Page

Now that you are a fully fledged e-fundraiser with a funky new online page you will want to start promoting it!

Each page gets its own website address which you can give out or email to all your friends and family. You will find the unique address in the confirmation email we send you when you create your page.

You can also ask us to set up a special address with your name at the end, just email helpdesk@workwithus.org

Fun Run
